

Abstract

Disability aid is a comprehensive online platform dedicated to providing valuable resources, support and information for individuals with disabilities . It create an inclusive and access a wide range of modules designed to address various aspects of disability, travelling concession, pensions, treatment. The core of our project centers around technology-driven solutions to enhance accessibility and independence. We plan to develop and promote innovative assistive technologies that cater to a wide range of disabilities. In summary, this project seeks to bridge the gaps in inclusivity and support for people with disabilities by addressing both technological and societal aspects.
